PASCAL LOUNGE

PATRICIA URQUIOLA

NEW DESIGNS

Pascal Lounge is a lounge chair that combines a four-legged frame made of solid beech wood with a generously proportioned upholstered seat. The interplay between wood and upholstery defines its character: a sculptural base offering great stability and a snug, enveloping seat that provides a warm and cozy reading experience.

The fully upholstered integrated backrest and armrests provide support without overwhelming the silhouette, enhancing the sense of relaxation. The Pascal Lounge is designed for waiting areas, lobbies, and residential spaces where comfort and a sense of substance are desired.
