FUSION CONFERENCE TABLE

RODOLFO DORDONI

NEW DESIGNS

The Fusion Conference Table reimagines the conference table through a precise and refined structural solution. Its central supports, made of die-cast aluminum with a slanted elliptical cross-section, create a light and high-tech aesthetic while freeing up the perimeter for a more comfortable seating arrangement. Available in various dimensions —with widths of 1,200 mm / 47.25 in and a new 1,500 mm / 59 in option, and lengths ranging from 2,400mm/ 94.50 in to 6,000 mm / 236.25 in— it adapts to meeting rooms of different scales. The combination of tabletops available in various materials, along with bases in neutral or metallic finishes, allows its character to be tailored to each project. The ability to integrate connectivity discreetly enhances its functionality without compromising the clean lines of the design, resulting in a contemporary, balanced, and refined conference table.

ME23609	2,400x1,200x735 mm (94.50" x 47.25" x 29.00")
ME23610	2,600x1,200x735 mm (102.25" x 47.25" x 29.00")
ME23611	2,800x1,200x735 mm (110.25" x 47.25" x 29.00")
ME23612	3,000x1,200x735 mm (118.00" x 47.25" x 29.00")
