NEW DESIGNS

Hula Club *Benjamin Hubert* New Designs

Hula Club expands the Hula collection with a low-profile, relaxed lounge chair. It retains the collection's signature design elements—a circular silhouette, a wraparound shape, and visual continuity between the backrest and seat—in a piece that exudes soft, understated elegance.

Available with hidden casters or gravity-activated casters triggered by the user's weight, allowing the piece to be easily repositioned and moved. The integrated rear handle can be upholstered to match the chair or finished in leather, adding a distinctive touch.

All of these features make the Hula Club an ideal design for lobbies, adaptable corporate spaces, and meeting areas.

BU2960
Fully upholstered lounge chair, base with hidden casters and a handle made of the same upholstery.
Available options: gravity-activated casters triggered by the user's weight and a leather handle.
