

Brezal Modular Sofa

Patricia Urquiola

This modular sofa collection invites you to enjoy leisure and relaxation in outdoor settings. It seamlessly integrates modern techniques with traditional elements, achieving a harmonious fusion of past and present in outdoor design. It consists of various sofa modules with an aluminum frame and independent cushions for the seat and backrest.

Brezal captures the vibrant essence of the Mediterranean landscape. Its designer, Patricia Urquiola, draws inspiration from the iconic wicker pattern, reinterpreting it with industrial technologies in aluminum crafting.

With a handcrafted use of cord, its arms and backrest are constructed with handwoven fabric panels, evoking a sense of intimacy and comfort. The design creates surfaces that offer shelter from the elements and provide exceptional comfort.

The Brezal sofa can be configured with 1-seater, 2-seater, corner modules, island modules, chaise lounges sections, which can come with or without backrests, and also includes a square table module that can be integrated into the modular composition.

With an aluminum frame and independent seat and back cushions, the modular system offers versatile configurations to adapt to any type of outdoor environment. The structure is offered in 6 colors (black, white, earth brown, red, green and blue) and the woven cords are offered in 7 shades (white, earth brown, graphite, sand, blue, green and red). The collection also has armchairs with arms that use the same language of braiding in their seat and backrest.

**BU2348**

Lounge chair with metal frame, upholstered seat and back cushion, woven cord backrest and armrests.

**SF2349**

2-seater right ending modular sofa section with metal frame, upholstered seat and back cushion, woven cord backrest and armrests.
